

Adaptive Planning Support

Whether you're looking for support with a brand-new deployment, developing a connector to Workday, creating Adaptive reports, or troubleshooting your existing setup, we can help.

Initial Deployment of Adaptive

Through our in-depth scoping and analysis of your business needs, we can find the ideal solution for your initial deployment of Adaptive including:

- Model building: creating new models and updating existing to meet changing needs
- Formula enhancements for personnel models, allocations and metric & custom accounts

Workday Data Management

With Workday Adaptive Planning you have the ability to connect your Workday tenant and Adaptive instance through a delivered connector. This is the first step in a multi-phase effort that will enable you to integrate Adaptive headcount, financial planning, and advanced modeling into your Workday experience.

- Help associate Workday & Adaptive tenants
- Configure security and SAML SSO
- Create Workday reports for data loader

Adaptive Reporting

Our most common request is around reporting, and we have experts to help with all your reporting and analytics needs including

- Office Connect and HTML Reporting
- Workday Advanced, Matrix, and Data Source reports for your connector
- Workday report writing and custom report creation

The Intecrowd Difference:

- ✓ Workday Certified Partner
- ✓ All Adaptive consultants are cross certified in Core Workday
- ✓ Intecrowd is able to handle all upstream and downstream impacts across your entire ERP solution

Ongoing Adaptive Support

Do you have an issue or enhancement not outlined? Talk to us about our flexible AMS model to provide ongoing support.
