Integration Monitoring Dashboard

Would you benefit from a consolidated view of integration statuses in Workday? Do you ever receive urgent inquiries about the status of an integration?

Solution

If you would benefit from a consolidated, real-time, Workday Dashboard that will enable you to respond to urgent inquiries or to better understand your integration processing trends, the Integrations Monitoring Dashboard is the QuickStart solution for you.

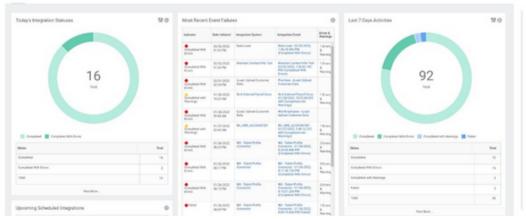

Includes

- Deployed in as soon as 2 weeks
 - Customized integration monitoring dashboard
 - 5 additional insightful reports
 - Migration support

Benefits

- Provides a consolidated view of integration processes, statuses, and events
- Improves monitoring capabilities to ensure failed events or events with warnings/errors don't go unnoticed
- Identifies ISUs with an upcoming expiration date
- Captures performance trends of frequently ran integrations
