

Intecrowd

Solutions Profile

Intecrowd is a Workday Services Partner with strong expertise in Deployment Services, Application Management Services (AMS), Integrations, client-side support, and Workday Cloud Platform.

Overview:

Intecrowd has over 160 employees in North America, Europe, and Asia holding over 550 Workday certifications -averaging 4+ years of Workday experience each. Twenty percent of our consultants have over 5 years of Workday experience. Our offshore development center in India allows us to provide offshore options for customers.

Service Offerings:

Integration Development and Maintenance

Founded on our integration expertise, our integration architects and consultants have designed and developed over 3000 integrations that include some of the most technically challenging integrations on the largest projects worldwide. Whether leveraging a CCB or custom developing a Studio integration, Intecrowd consultants are asked to perform the most complex integrations across the Workday ecosystem.

Application Management Services (AMS)

You're live on Workday. Now what? Intecrowd's Application Management Services are designed to support your ongoing support needs at your pace of business. Our AMS Center of Excellence works as a team to work with you to continue to optimize your investment with functional and technical expertise across the Workday platform. Our AMS services go beyond break-fix and include configuration assessments, strategic release management, adoption services and Phase X services to drive value from your Workday solution.

Deployment Services

As your business evolves, so do your Workday needs. Our Deployment Services takes a client-centric approach in delivering enterprise solutions. Whether it is a global Financials roll-out or a multi-national Payroll or Time Tracking implementation, Intecrowd's seasoned consultants combine industry experience with Workday best

Workday Cloud Platform (WCP)

Intecrowd is a Hackathon award- winning WCP Partner that can extend the value of your Workday solution using WCP. We have over 20 WCP-experienced team members that have created unique solutions that include unique time tracking, payroll and vehicle management.
